Our offer

We offer a unique chance to be part of the further development of highly specialized reconstructive plastic surgery.

About the position

The unit for Reconstructive plastic surgery is taking part in a diverse number of areas such as trauma, burns, and oncological surgery. Our unit have a close collaboration with specialized centers at the hospital such as Breast center, Center for skin tumors, Head/Throat/Neck oncology, thoracic surgery, trauma orthopedics, pelvic oncology as well as musculoskeletal tumors.

We are a center for surgery of gender dysphoria which is the largest of its kind in Sweden.

The open positions compose of clinical work in all areas in our team of general plastic surgery and microsurgery as well as instruction and supervision of younger colleagues.

The unit for Reconstructive plastic surgery at the Karolinska University Hospital is the only unit in Region Stockholm offering specialization in plastic surgery. Therefore, a large part of the position will be dedicated to educating future plastic surgeons in all types of plastic surgery. In addition, we also train colleagues at the hospital from other fields of specialization.

A central part of our work is conducting continuous measurements of quality outcome to identify new measurements of quality as a way to further enhance our results.

The position requires on-call duty.

We are looking for

Senior doctors who are positive and driven plastic surgeons with broad competence in the field of plastic surgery with vast experience of reconstruction. Moreover, we are looking for candidates with a will to further develop our unit to be world leading in our field.

We work in a highly complex and dynamic environment thus flexibility and problem solving skills are central parts in succeeding in the role.

Our approach to our colleagues is the hospital's motto "*Together we are Karolinska*" in the meaning that we have a joint responsibility for the success of all units at the hospital.
